Feedback kindly supplied from key feedlots and processors including AACo and Stanbroke Beef over the last 13 years has helped accurately identify genetics for Kuro Kin Crossbred Wagyu F1 50%'s that consistently achieve:

- Aus-Meat Marble Scores averaging 5.65
- Carcass Weights averaging 421kg

Bulls that Kuro Kin Wagyu offers at international sales have been classed to be used in our own breeding programs and are usually not offered for sale.
